

MUH RAFLI SHOFA

Software Quality Assurance

081252105649 | muhraftishofa@gmail.com | <https://www.linkedin.com/in/raftishofa/> | Portfolio – Muh Rafli Shofa |
Wonosobo, Central Java, Indonesia

PROFESSIONAL SUMMARY

Aspiring QA Engineer with hands-on experience in manual and automation testing from Growia and Digital Skola bootcamps. Skilled in test case creation, functional testing, and bug tracking, with exposure to API and performance testing using Postman, Selenium, and K6. Motivated to deliver high-quality software.

EDUCATION

Mahakarya Asia University, Yogyakarta
Bachelor Degree of Management
2019 – 2023, GPA: 3.79 / 4.00

CERTIFICATION / BOOTCAMP

Quality Assurance Engineer Bootcamp – Digital Skola

January - March 2026

Project: QA Engineering Projects – Digital Skola

Tools: Postman, Mocha, k6, Selenium/WebdriverIO, Appium, JavaScript

- Executed 16 test cases and identified 4 defects in manual testing (login & user management)
- Developed API testing and automation with token-based authentication and JSON validation
- Conducted performance testing using k6 with response time validation (<1s)
- Built web UI automation using Page Object Model (POM) for login scenarios
- Implemented mobile automation testing using Appium with Allure reporting

Manual Quality Assurance Certification - Growia Education

May - August 2024

Project: Manual QA Testing – Growia Shop (E-Commerce Platform)

Tools: JIRA, Google Sheets, Chrome

- Designed and executed 31 test cases covering core features (profile, cart, checkout, admin panel)
 - Identified and reported 15 defects with clear severity and reproduction steps
 - Performed functional, integration, and exploratory testing
 - Improved test coverage and ensured system reliability before release
-

SKILLS

- **Testing Skills:** Manual Testing | Automation Testing | API Testing | Functional Testing | Performance Testing
- **Automation & Tools:** Selenium (Web UI Automation) | Android Studio (Mobile Testing) | Mocha & Node.js (API Automation) | Postman (API Testing) | K6 (Performance Testing) | VS Code
- **Other Tools:** JIRA (Bug Tracking) | Git (Version Control)
- **Soft Skills:** Attention to Detail | Analytical Thinking | Problem Solving | Communication
